REBOUNDER CUSTOMER REVIEWS

□ □ □ □ □ – Best exercise ever and best rebounder for it

by Karen from Toronto, Canada

- I have had my Needak for about nine months now. My chiropractor recommended it for the benefit of my bones. I am 60 and the rebounder made me have the figure of a 30 year old and never put on weight with the bounding. It makes me feel like a kid again, and the results are nothing short of amazing!

□ □ □ □ □ – Needak is highest quality: Compare these!

by Burtka from Hawaii

- I have been an avid jumper on some type of rebounder since the late 80's. Replacing the spring on the old rebounder (Reboundair) was a tedious job, took forever, even with the help of a man. The springs were easy to replace on Needak. The legs of the Reboundair jiggled when I jumped, the legs are stable on Needaks. Plus, Needak is less expensive!

□ □ □ □ □ – Important as refrigerator or toothbrush

by H., California, USA

- My Needak is part of my life, yet is not pushy, nor particular where I put it, yet always there, quietly ready. It is there when I do not have time for a walk, or when the weather is negative, then my Needak perks up positive in its confident superiority anyway, the best and better way anyhow for each hard to reach cell. Like everything familiar and friendly, I would not part with it.
